Xypex Chemical Corporation  
13731 Mayfield Place  
Richmond, British Columbia  
Canada V6V 2G9

## **Product Identifier**

---

Xypex Gamma Cure

## **Product Use**

---

Curing Agent specifically designed for Xypex crystalline coatings.

## **Emergency Assistance**

---

For emergency assistance involving products, contact Xypex at (604) 273-5265 or (800) 961-4477.

## **Hazardous Ingredients**

---

Not Applicable.

Mixture is acidic and can be corrosive, follow instructions below re appropriate personal protective measures.

## **Physical Data**

---

Physical State: liquid (clear-light blue)

Odor: not applicable

pH: 2.2

Specific Gravity: 1.1 (water = 1)

Solubility in Water (% W/W): water dilutable

## **Fire and Explosive Data**

---

Not Applicable.

## Reactivity Data

---

Gamma Cure is stable under normal conditions.  
Hazardous Polymerization will not occur.

## Toxicology Properties

---

Exposure limit of material - none.  
No known toxicological effect.

## Preventive Measures

---

### Personal Protective Equipment

It is recommended that user wear impervious gloves that provide acid resistance, rubber boots, tight-fitting safety goggles, and impervious clothing that protects skin from contact.

Additional safety precautions may include eyewash station, shower facility. Respiratory protection is not normally required. For airborne concentrations wear a MSHA/NIOSH approved half-mask. Air-purifying respirators should be equipped with organic dust and mist filters. Use local exhaust ventilation with a minimum capture velocity of 100 ft. min. (0.5 M/sec) at the point of vapor evolution.

### Leak/Spill Procedures

Wear protective equipment. Evacuate all non-essential personnel. Floor may become slippery. Use care to avoid falling. Contain spill immediately with inert materials (e.g. sand, earth). Wash residual with water. Transfer liquids and solid diking materials to separate suitable containers for recovery or disposal. Prevent runoff into drains, sewers and other waterways.

### Exposure Limit

Dispose of solids and washings in accordance with federal, provincial/state and municipal regulation regarding disposal.

### Storage Requirements

Store in moderate environment. Protect from freezing.  
Keep in sealed containers until product is required.

## First Aid Measures

---

### Eye Contact

Irrigate eyes with large amounts of water for at least 15-20 minutes. Hold eyelids apart to ensure rinsing of the entire surface of the eye and lids with water. Seek immediate medical attention if irritation persists.

### Skin Contact

Under running water, remove contaminated clothing, shoes and leather goods. Wash contaminated area with soap and lukewarm, gently flowing water. Seek medical attention if irritation persists.

Inhalation

Move person to fresh air and seek immediate medical attention.

Oral Ingestion

Drink 225 - 450 ml (1 - 2 cups) of water. Do not induce vomiting. If vomiting occurs naturally, have victim lean forward to reduce the risk of aspiration. Never give anything by mouth if victim is rapidly losing consciousness, unconscious or convulsing. Seek immediate medical attention.

*The information in this Material Safety Data Sheet relates only to the specific material designated herein and does not relate to use in combination with any other material or in any process. The information given is based on technical data that we believe to be reliable at the time of issuing the MSDS. Because conditions of use are outside our control, it is the responsibility of the user to verify safety data for combinations with other materials, or for use in specific processes, and to verify waste disposal requirements.*
